Specification

HYUNDAI MATERIAL HANDLING Applied Tier 3 Engine

250D-7E

PLEASE CONTACT

MOVING YOU FURTHER

Ability of best, the new master on the job-site!

Smooth running, efficiently and ergonomically designed, 250D-7E series are made to meet your needs.

120.4kgf+m/1,400rpm

Full-automatic Transmission

two kinds of automatic modes. $(1st \leftrightarrow 3rd, 2nd \leftrightarrow 3rd)$

Full-automatic transmission gives easy, convenient handling and soft, smooth shifting. The operator can select

Powerful Engine

Cummins **OSC Engine**

The six cylinders turbo-charged engine is built for power, reliability and economy. This engine meets EPA Tier 3 and EU stage IIIA emission regulation.

Engine Control Mode

According to operating load, the operator can select engine mode by changing side panel switch.

STD Mode : Fuel reduction mode for light-duty operating load POWER Mode : Heavy-duty or operating at slope

Adjustable Engine Low Idle RPM While engine runs, low idle rpm can be increased by unit of 25rpm and it keeps previously set rpm when engine restarts.

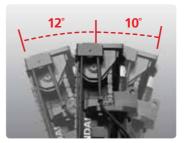

Cruise Control It offers the ability to automatically maintain a desired engine speed with no accelerator pedal input and reduce fuel consumption.

Transmission Control Switch

Excellent Night Work - Various position of work lamp provides the operator more comfortable and safe operating environments. - Front : fender(2), mast(2) - Rear : cab(2)

Increased Mast Tilting Angle Utilizing the mast tilting angle of 12 degrees forward and 10 degrees backward, the operator can perform loading and unloading jobs safely and rapidly.

Faster Travel Speed & Better Gradability

The powerful engine provides greater acceleration, better gradability and faster travel speed on any tough terrains or slopes.

Gradability (Loaded) 250D-7E: 33.8%

Travel Speed (Unloaded) 250D-7E : 31.7 km/h

Ergonomic driving space design!

A design based on human engineering relieves fatigue and increases operator's efficiency.

Operator Friendly Gauges and Water-resistant Monitor Panel

Easily Adjustable Suspension Seat An attractive and adjustable seat, based on a human engineering design, provides great comfort, safety and durability. (Head Rest - option)

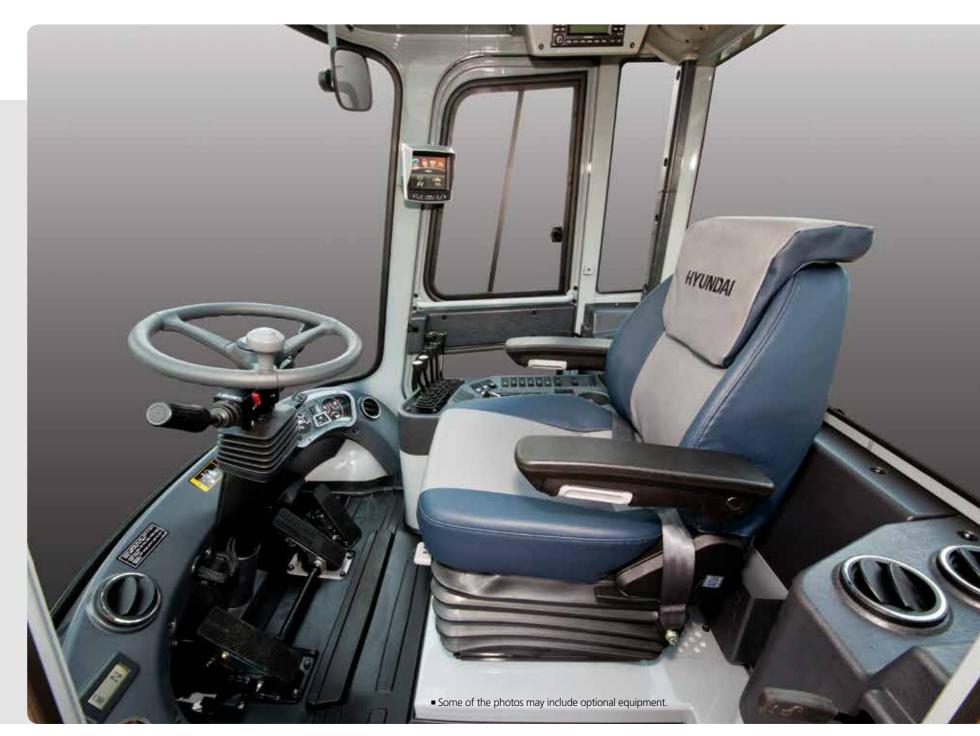

pressure.

High-output Air Conditioner & Heater

An air conditioner with integrated the condenser is mounted on upper side of the cabin to make a wide room in the cabin.

And an air conditioner with high-output and heater always provide you with comfortable environment when you work.

Rear View Camera The rear view camera makes the A load can be placed on the fork operation more easy and and can be accurately weighed convenient. And it supports 4 by measuring the hydraulic camera channels.

Centralized Instrument Load Indicator switch Panel

MP3 CD Player & Remote Control

Hands Free Socket (Option)

Quick Response of Operating Control Levers Only minimal operator's effort is required for precise, safe and productive control. (5-Lever, 6-Function: Standard) (5-Lever, 7-Function: Option)

Ergonomically Positioned Pedals Based on human engineering the accelerator, brake and inching pedals are optimally positioned for the operator's convenience.

Adjustable Steering Column

Steering handle is adjustable depending on the operator's body shape. Adjustability of steering column makes you more comfortable.

Danger-free through high durability!

Safety and durability are priorities in design of the equipment.

Up-to-date Cooling System The minimum fuel consumption and low noise are available by applying hydraulic cooling fan sensing intake air temperature, transmission oil temperature, coolant temperature and hydraulic temperature.

OPSS(Operator Presence Sensing System) Control of mast tilting, lifting and lowering is not possible through operation of the appropriate control when the operators is not in the normal position.

The planetary reduction drive axle smoothly delivers desired torque to the drive wheels.

The parking brake is engaged automatically when the transmission is neutral and the operator leaves the seat.

Wet Disc Brake System The wet disc brake system is virtually maintenance free and is enclosed to protect from dust and water.

Fitted Protector for Hub Bolts Durability has improved by applying protector for preventing bolts breakage. (Easy parts supply due to the wheel in common with front wheel)

Cabin Tilting Automatic System Cabin tilting automatic system makes servicing of all power train components quick and easy. An electrically assisted hydraulic actuated cylinder tilts operator cabin to left side about 65 degrees for easy access to inside of truck components.

Grease Fittings Grease fittings are installed for fast access to steering axle center pin when doing your service checks.

Highly Durable Mast & Carriage Side Roller Side roller with great durability for mast and carriage is included.

Highly Durable Carriage The carriage is very strong cause of applying the high tensile structural steel which has a excellent durability.

Large Footboard & Handle Wide "open" step offers convenience and safety when entering and exiting the truck.

Centralized design for easy service!

An ideal arrangement of component parts ensures easy access and convenience for maintenance.

Large Engine Hood Highly accessible engine compartment assures fast and efficient maintenance.

Easy Change Air Cleaner This air filter is readily accessible for cleaning or replacement.

Cabin Air Fresh Filter The internal pressure is maintained to be slightly

higher than that of outside to exclude dust and to educe noise levels.

Compact fuse Box for Easy Inspection

Mechanic Friendly Fuel Filter Replacement Highly accessible engine compartment allows for quick replacement of filters.

Electrically Monitored Air Filter

Air cleaner sensor alerts the operator of a clogged air filter and allows opened by a self locking gas spring. replacement before damage.

Automatic Self Locking **Gas Spring** Engine compartment hood is safely

Master Switch A master switch disconnects the battery power to protect the electrical system from excess electrical drainage.

Large Tool Box

Pressure Gauge Port

Easy Maintenance Oil Check
